The Accelerated Auction Marketing Program creates urgency in the marketplace and allows Sellers to control the terms and the timing of the sale of their real estate and other assets. By accelerating their sales, Sellers avoid protracted carrying costs and future market uncertainties. For Buyers, auctions allow bidders to buy quickly, efficiently and at prices they determine. The complexity of today's real estate world requires a full service auction company to provide expertise in multiple disciplines. In addition to Auction Marketing, AcAuctions will provide full real estate consulting services as well as traditional brokerage Services. Through this approach the Firm can assist its clientele in the following areas:

Commercial, industrial, retail and special purpose properties

- Residential single family and multifamily- urban, suburban, luxury and resort
- Agricultural properties
- Restructuring & workout advisory
- Construction & land entitlement Advisory
